## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 1-13, 15-28 and 31-32 are objected to because of the following informalities: claim 1, line 5, "before "said", "the" should be deleted; line 5, "having the" should be replaced by "having a". Claim 5, line 2, recites "third threshold", however, there is no limitation to a "second threshold". The same comment applies to claim 19, line 2. Claim 13, line 1, "an" should be changed to "a". Claim 15, line 5, before "said", "the" should be deleted; line 5, "having the" should be replaced by "having a"; line 7, "method" should be replaced by "apparatus"; line 10, "a" should be inserted before "logic". The same comment applies to claim 31. Note that any claim whose base claim is objected is likewise objected. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-13, and 15-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, lines 1-2, "the uncoded data stream" lacks of proper antecedent basis. The same comment applies to claim 15.

Claim 2, the limitation " a first type and a second type" renders the claim vague and indefinite because it is unclear as to what constitutes a first and a second type of preambles as recited in the claim. The same comment applies to claim 16.

Art Unit: 2611

Claim 3, the limitation "B preambles", and " M and W preambles" render the claim vague and indefinite because it is unclear as to what constitutes a B, M and W preambles. The same comment applies to claim 17.

### ***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 14 and 29 are rejected under 35 U.S.C. 102(e) as being anticipated by Ohmori, US Patent No. 6,647,502.

As per claim 14, Ohmori discloses a method and apparatus fig. 1, comprising storing data in a FIFO 3 processing the data from FIFO 3 in a logic block 4 using a clock see output of controller 7, wherein the frequency "speed" of the clock is adjusted according to the amount of data "the number of words" stored in the FIFO 3 see col. 3, line 58-col. 4, line 2.

As per claim 29, see claim 14.

### ***Drawings***

6. Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid

Art Unit: 2611

abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Allowable Subject Matter***

7. Claim 30 is allowed.
8. Claims 31 and 32 would be allowable if amended to overcome the objection set forth above.
9. Claims 1-13 and 16-28 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
